

babylons

NFT Platform

The Ultimate GameFi Destination

babylons.io

What is Babylons ?

Babylons is the first community-governed NFT Marketplace, premiere blockchain gaming aggregator, auction-house, crowdfunding platform, DAO and technology solutions provider trusted by over 100 partners.

What is NFT ?

Non-fungible tokens (NFTs) are digital assets that have many use cases.

Art

Games

Collectibles

Music

Virtual Assets

Physical Assets

Sports

Identity

Creators can tokenize their works on our decentralized application to track and prove their rarity, authenticity and ownership history.

Collectors can bid on auctions, and trade valuable digital goods with royalties going back to the original creator each time an NFT exchanges ownership.

With Babylons' smart contract technology creators can include any promotional material as unlockable content bonded with their NFT. Materials mentioned can vary between digital and physical assets. Examples for this include:

Babylons Bussiness Model

Create

Create your own NFTs

Highlighted

Get your digital goods highlighted

Buy / Sell

Sell your own NFTs
Buy and collect NFTs

Low-cost Minting

Mint NFTs less than a dollar

Weekly Airdrops

- Token Distribution Services

Weekly reward sharing structure

Stake Pools

Token stakers get 30% as rewards.

Operations

25% will go towards ongoing business and marketing operations.

Stored for buyback

25% will be used for buyback and buybacked tokens will be stored by founders.

Buybacked tokens will be stored for a certain time at the address that will be shared publicly.

Burned

20% will be used for buyback and buybacked tokens will be burned.

Half of the burnable coins will be burned weekly. Remaining halves will be held and burned all together in big burn events every 6 months.

- Given values and ratios are subject to governance committee decisions.
- Standard commission fee is 2% on all NFT trades on Babylons

Weekly airdrop mechanism for active users

Each week, 227,500 tokens are distributed to active users according to their share in the weekly total volume.

Both buyers and sellers are eligible. Weekly reward airdrops will be terminated after 365 weeks when all reserved tokens get distributed.

Conditions

First 3 months*

If weekly total volume exceeds 5,000 BNB, 227,500 tokens will be distributed.

Otherwise, a certain number of reserved tokens will be sent back to weekly reward pool proportional to missing volume.

First 3-6 months*

The limit will be updated to 10,000 BNB

Limit

10.000 BNB

After first 6 months*

The limit will be updated to 15,000 BNB

Limit

15.000 BNB

Babylons Governance Token - \$BABI

Available on:

Contract: 0xec15a508a187e8DDfe572A5423Faa82Bbdd65120

\$BABI is our governance token. It is a deflationary fungible digital asset with a **daily trading volume** around **\$1,5M**. Anyone can own the platform partially by utilizing \$BABI and vote on system upgrades.

More information about tokenomics, sale rounds and the infrastructure of \$BABI is officially released in detail on various platforms including Medium.
